

Santaluces High School Summer Reading Assignments 2019

Dear Santaluces High School Chiefs,

Summer break is a time for relaxing and spending time with family. However, research shows that students who take time off from reading during the summer show a significant drop in reading levels compared to students who continue reading throughout the summer months. To make summer reading accessible to all students, your Chief English Department is excited to announce that this year's summer reading assignments are all available online.

For 9th and 10th graders, the reading selections and assignments are short stories that will help students prepare for the Florida Standards Assessments at the end of the year.

For 11th and 12th graders, the novels will help you improve your critical thinking, writing, and reading skills, all useful for increasing your scores on SAT and ACT.

For AICE students, the assignments will help you prepare for the rigors of a college-level English course.

Enjoy these reading selections. Some of the assignments must be submitted through Google Classroom. Please review the requirements for each grade level and class. The assignments are MANDATORY and will count as a grade during the first quarter of the school year.

Have a wonderful summer break! We look forward to seeing you in the fall.
